

UN 232-OHB22-0XA0

Model	EM232 2 outputs x12bits
Product Description	2AO; 12 bits resolution voltage output; 11 bits resolution current output
Input Feature	
From bus current consumption	20mA
From L+ current consumption	70mA
Power loss	2W
Number of analog Input	-
Signal input type	-
Maximum input voltage	-
Maximum input current	-
Voltage input range: Unipolar	-
Voltage input range: Bipolar	-
current input range	-
Resolution	-
Bipolar,full-scale range	-
Unipolar, full-scale range	-
Analog to digital conversion time	-
Number of analog Input	2
Input voltage range	-10~+10V
Input current range	0~20mA
Load inpedance	
·for voltage outputs	Min:5KΩ
·for current outputs	Max:0.5KΩ

Resolution	12 bits voltage output; 11 bits current output
Data word format	
·Displayable:voltage output	-32 , 000~+32 , 000
·Displayable:current output	0~32 , 000
Basic error	±0.5% of full range
Dimensions(W x H x D)(mm)	46×80×62
Order Number	UN 232-OHB22-0XA0
